

**PET POLICY  
CONSULTATION  
Feedback Booklet**

**APRIL 2016**

Following our tenant consultation in April 2016 I wanted to inform you of how your feedback has contributed to the shaping of our new policy.

## **What was the aim of the consultation?**

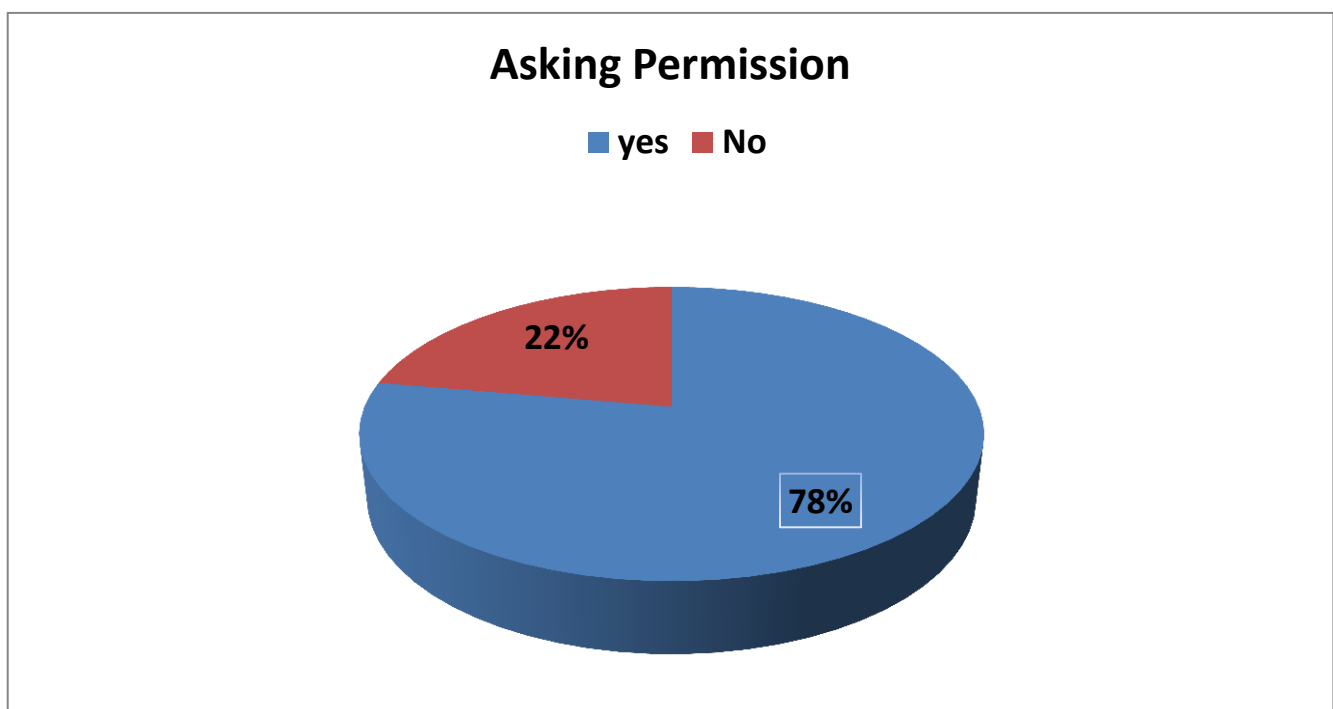

The aim was to ask questions around the new policy.

## **How the focus groups were run**

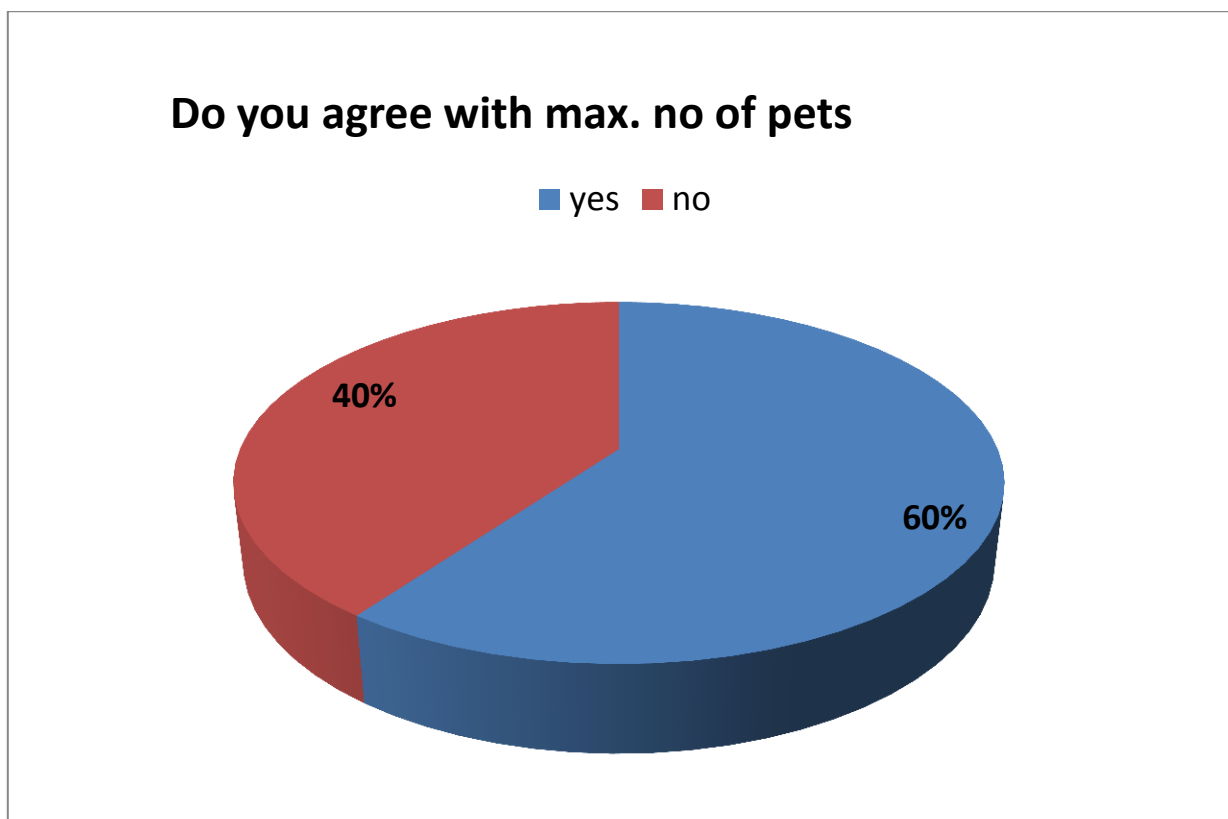

Questionnaires sent out to tenants who had shown an interest.

# Feedback and comments from the consultation

1. Tenants were asked if they should request permission before being allowed to have a pet.

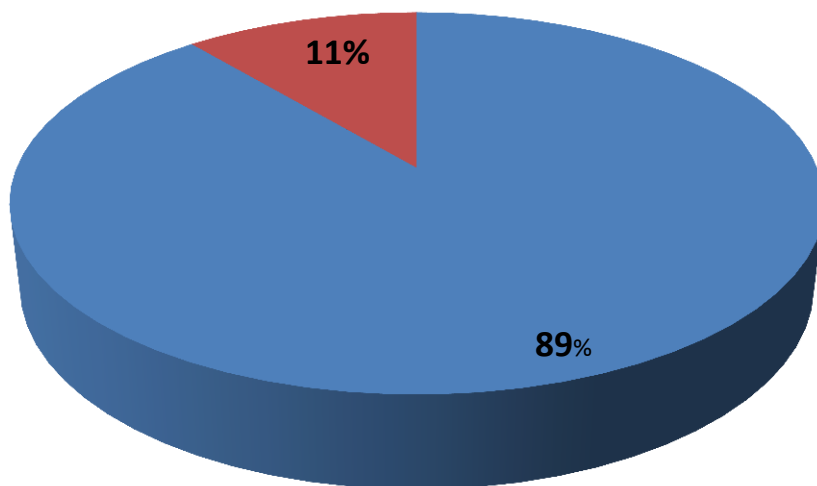

2. Tenants were asked if they agree with the number of pets allowed (2 dogs or 2 cats per house or max. of 1 dog or 1 cat in a flat).

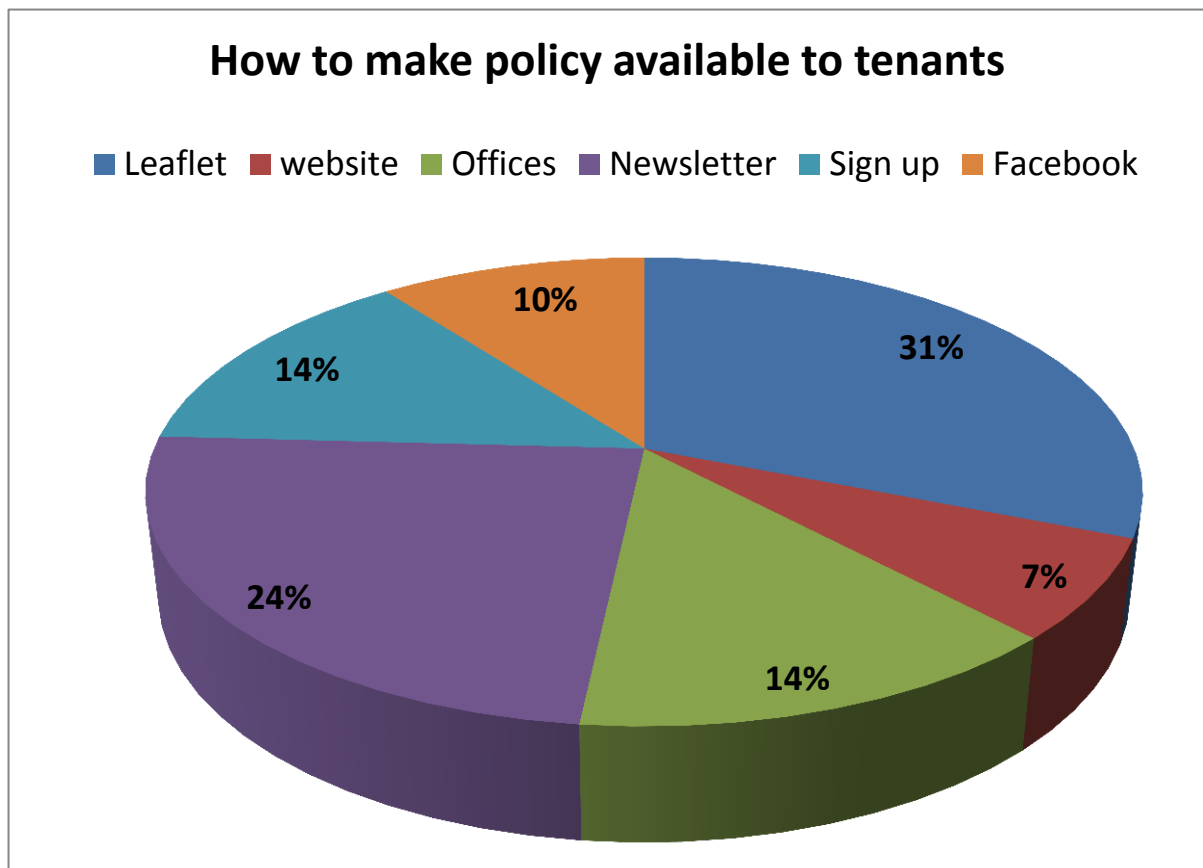

3. Tenants were asked if they agree with the criteria for asking permission such as of home, own entrance, size of garden, species of pet, tenants history of keeping pets.

**Do you agree with criteria for permission**

■ Yes ■ No

4. Tenants were asked how we should make the policy available to other tenants.

## **What happened next?**

The Policy has not been changed as the majority of responses agreed with the proposed policy.

We are working on a leaflet which combines information on the policy and an application form.

## **Introduction of Policy**

September 2016.
