

PUBLIC NOTICE

Towyn Road, Pensarn – Construction Update

Cartrefi Conwy would like to inform residents of the upcoming activity at our Towyn Road housing development site.

Saturday Working Hours

When required, our contractors will now be working on **Saturdays between 8:00 am and 1:00pm**, in accordance with the site's planning approval.

While every effort will be made to minimise disruption, please be aware that lifting operations and machinery movement may generate some noise. These activities will be managed to reduce the impact on nearby residents.

Piling Works – Second Phase

The second phase of piling works is scheduled to **commence on Monday, 29th September**. This phase may involve intermittent noise and vibration. All works will be carried out during the week within permitted hours for approximately 5 weeks.

Dust and Environmental Controls

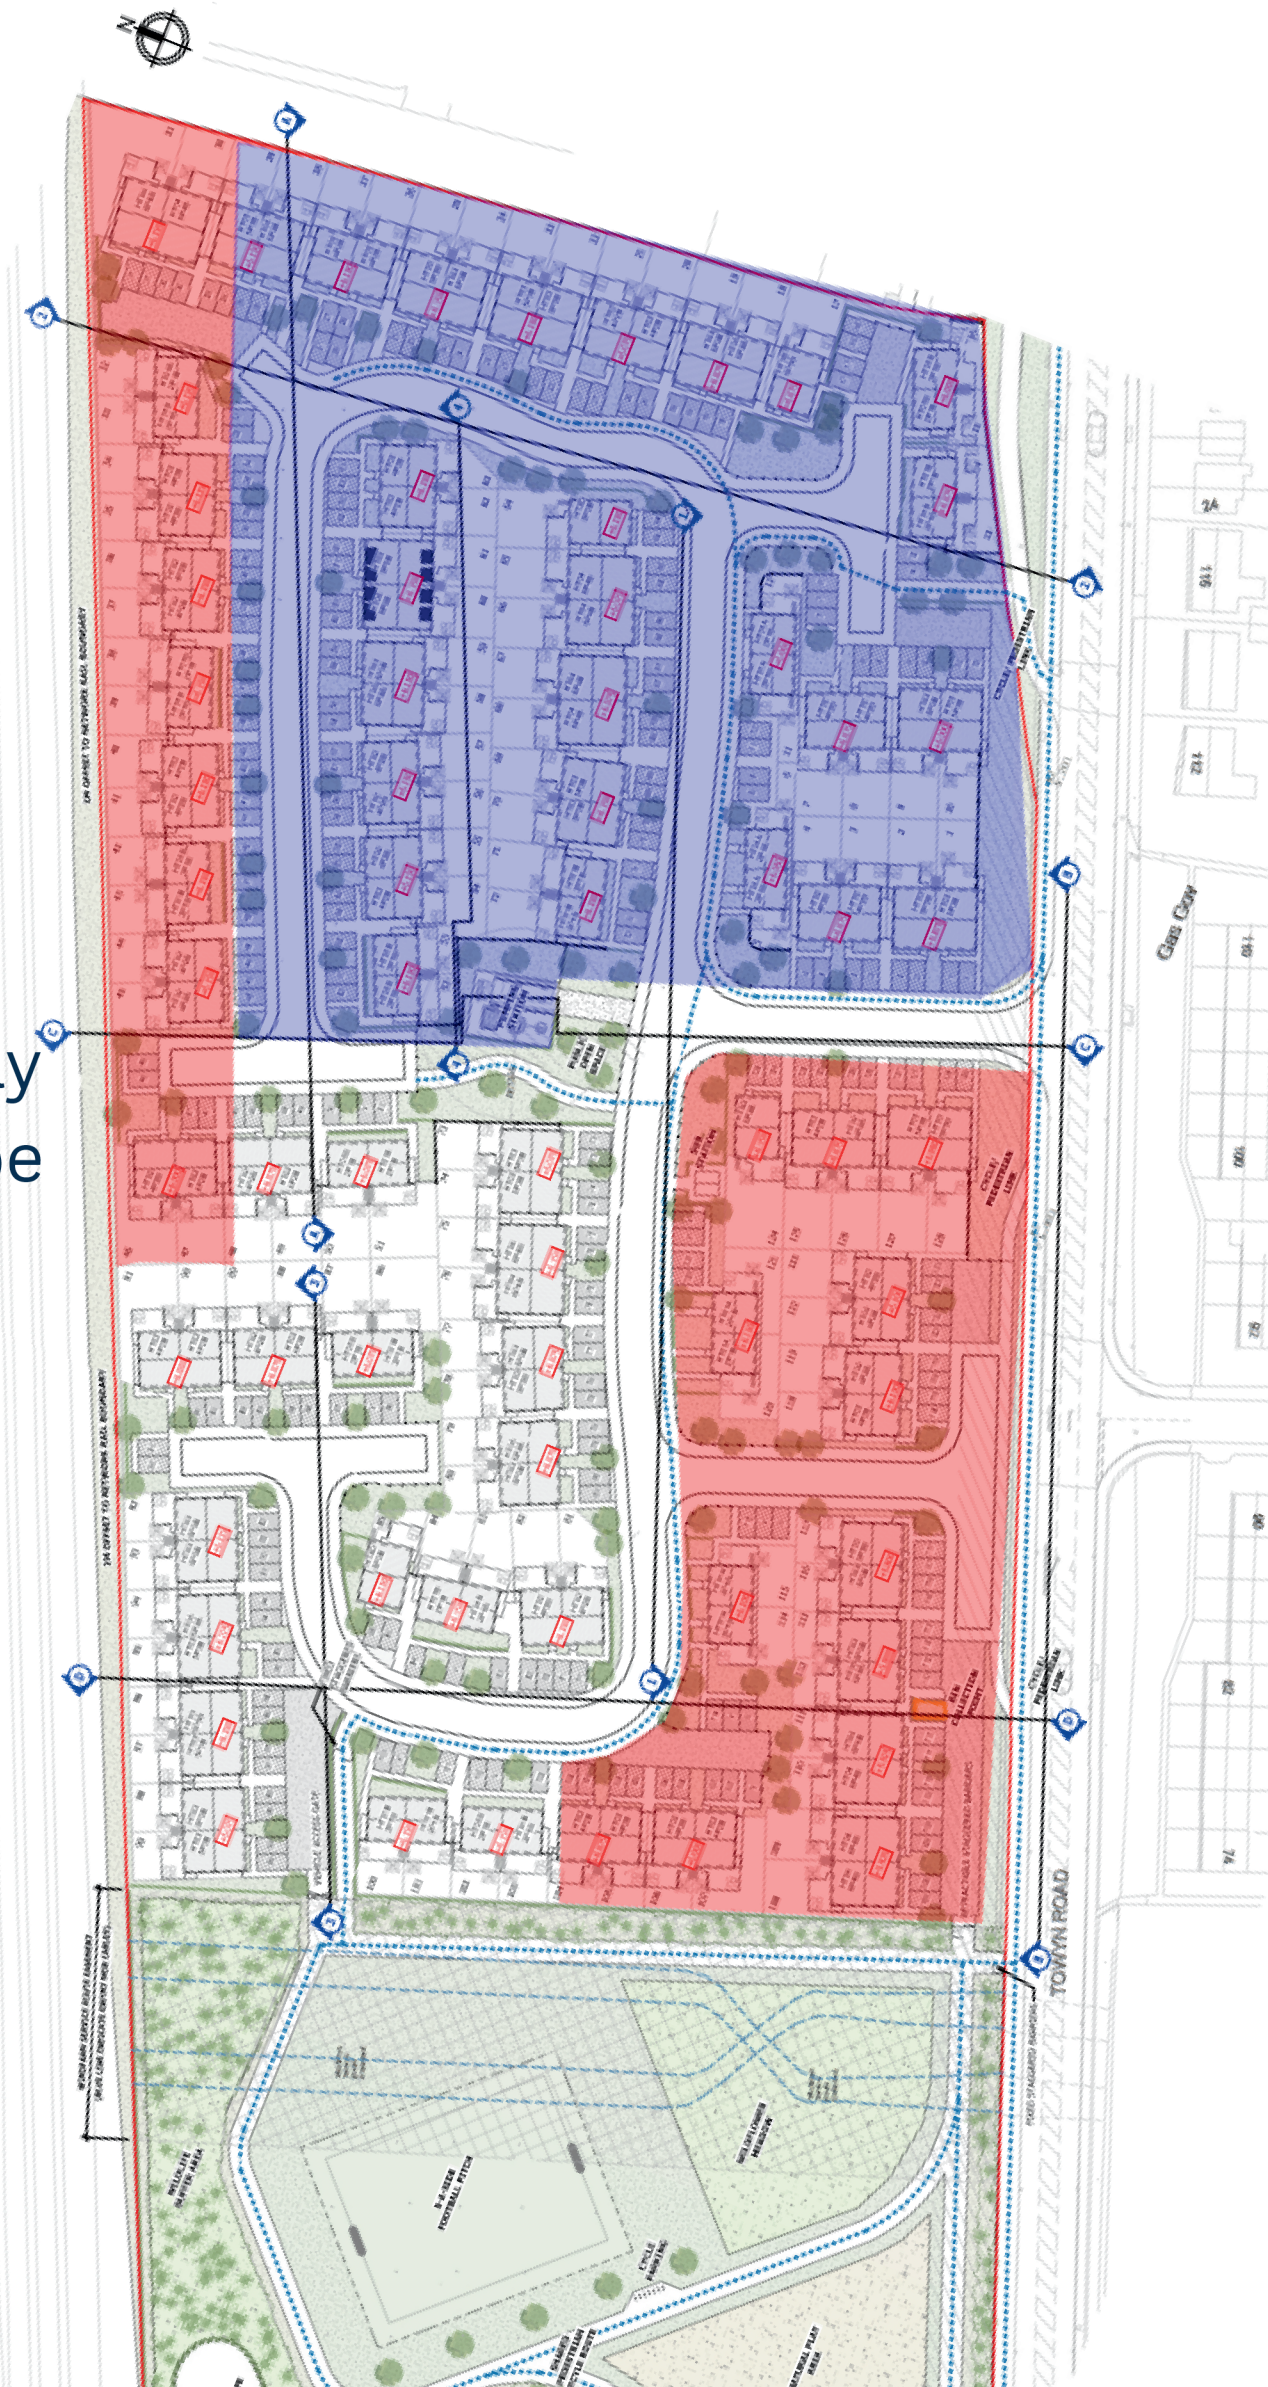

To help reduce dust, mesh screening has been installed around the site perimeter. Seasonal weather conditions are also expected to assist in keeping dust levels low.

Resident Engagement – Site Update Meeting

Our Project Manager, Graham, is inviting residents to attend a site update meeting, an opportunity to:

- View site plans and progress
- Ask questions
- Learn about the next steps in the development

✉ To register your interest, please email us with your contact details. A newsletter with further updates will also be distributed to residents.

i If you have any questions relating to this project, please email:
